

JOURNEY OF HOPE

Adoptive Family Camp

Holt International will host the Journey of Hope Adoptive Family Camp for adoptees and their parents this summer!

This family camp is designed around the Trust-Based Relational Intervention (TBRI)® parenting curriculum for adoptees and their families. Even years after their adoption, some children may struggle with behavior regulation, attachment and social skills. With specialized assistance from TBRI practitioners, this camp will equip families with tools and strategies they can use to help their child learn self-regulation skills and deepen family attachment. Other activities include fun sensory games, art and EAGALA equine therapy!
