

This Guide is a brief review of the Holt International Children’s Services, Inc., Employee Benefits plan. This is the time of year when we do the annual review of our employee benefits program. To better assist you in understanding your benefits and changes to the Plan for this year we are providing this Quick Guide. The Quick Guide will serve as the Summary of Material Modification for our plan. It describes changes to Holt International’s employee benefits plan and supplements the Plan Document and Summary Plan Description for the Plan. You may ask to have the complete Plan Document and Summary Plan Description delivered to you at no cost at any time. This is an overview of your benefits and is not a written contract. The actual policies including the plan summaries issued by the insurance companies contain the legally binding terms and conditions and always shall prevail.

## Who Is Eligible To Enroll?

### Full Time Employees:

The benefit package is available to all eligible employees. You are considered an eligible full-time employee if you work an average of 30 hours per week. You are eligible to participate in benefits on the first day of the month following your date of hire. If you are participating in the plan you may enroll your spouse and dependents in the plan.

### Part Time Employees:

Part time employees earning more than \$10,000 during the eligibility determination period are eligible for dental, vision and limited purpose FSA benefits. The eligibility determination period runs from 9/1 through 8/31 of the previous year. If you are participating in the plan you may enroll your spouse and dependents in the plan.

### Part Time and Variable Hour Employees – Medical Insurance Eligibility:

For employees hired into an employment category that may work less than an average of 30 hours per week, your hours of service will be tracked during the company's defined measurement period. Holt International has elected a measurement period of 12 months in determining eligibility to participate in the company's Medical Insurance Plan. The measurement period runs from 8/1 to 7/31. The company reserves the right to review hours of eligibility in making these determinations. This will be done during the administrative period, which may last up to 60 days. Once eligibility is established, eligible employees will have the opportunity to enroll. Employees who enroll and continue to be employed by the employer, will be allowed to remain on the plan for a period of time no less than the defined measurement period. If you are participating in the plan you may enroll your spouse and dependents in the plan.

### Eligible family members include:

- Legal Spouse or Registered Domestic Partner ("spouse" means an individual who is legally married to a participant as determined under Revenue Ruling 2013-17, in accordance with federal and state law and as specified in each benefit plan)
- Dependent children up to age 26 or as defined in component plan documents

Refer to underlying component benefit program documents for more information about dependent eligibility, definitions of family members and spouse, and overall coverage. Your benefits eligibility may be affected if your status changes to inactive due to a family, medical, or personal leave of absence. Contact your Plan Administrator for additional information.

## When Can I Enroll or Make Changes?

**Open Enrollment:** Our medical, dental, vision and FSA plans have an annual Open Enrollment period. All group benefits elected during open enrollment are effective on October 1st and remain in effect through September 30th as long as you maintain your eligibility. During open enrollment, you can enroll in benefits for the first time, renew your coverage, make changes to your current coverage or cancel participation.

**Initial Enrollment:** Our voluntary life, Colonial and AFLAC worksite plans are offered with full guarantee issue coverage when you are initially eligible. Benefits election may be available during our annual enrollment period but could be subject to benefit limits and health underwriting.

**Mid-Year Changes to Elections:** When premiums are paid on a pre-tax basis, the IRS has rules defining when you can make changes to your coverage. Once you elect a plan for the plan year, you cannot change or stop your contributions during the year unless you experience a qualifying event. Qualifying events include, but are not limited to: Death of a spouse or partner, gaining a new dependent, marriage, divorce, commencement or termination of partner relationship, birth or adoption of a child, loss of your job or loss of your spouse or partner's job, employment status changes (e.g. full-time to part-time). You must notify the company within 30 days of a qualifying event in order to request a change in your insurance.

## How Do I Enroll and Contract Information for Benefit/Enrollment Questions

The Paylocity open enrollment portal will be active **September 8, 2021 through September 19, 2021**. Prior year benefit elections, with the exception of flexible spending account elections, will roll over into the new plan year. However, all employees are highly encouraged to login and review and confirm their benefit elections. Employees wishing to participate in flexible spending accounts must enroll each plan year, as those elections will not renew year to year.

Remember, this is your only time to enroll or make benefit changes for the entire plan year unless you have a qualifying life event. If you have misplaced your Paylocity portal login information or have any questions, please contact Megan at 541-687-2202, ext. 109 or via e-mail [megano@holtinternational.org](mailto:megano@holtinternational.org)
